Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Hello! I am a college student that can't afford cell phone monthly payments and that is why I bought a trac phone. The only time that I use my trac phone is when I am on the road traveling from college back to home just in case i am running late and no one worries about me. I would really appreciate it a lot if you didn't raise the trac phones to a monthly payment. Please take my situation and other peoples situation into account before you make your final decision. Thank you for you time.

Sincerely
concerned customer

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
